DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11 and 13-19 drawn to polyimide film and substrate thereof

Group II, claim(s) 12 drawn to a method of producing polyimide film recited in Group I.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature in both groups is the polyimide having a benzoxazole structure with tetracarboxylic acid anhydride. This element cannot be a special technical feature under PCT Rule 13.2 because the element is shown in the prior art. **JP11504369** (listed on IDS) discloses polyimide precursor solutions comprise an organic liquid and the reaction product of an aromatic dianhydride and an aromatic diaminobenzoxazole capped (Abs.)

A telephone call was made to Barry E Bretschneider on 03/19/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Affirmation of this election must be made by applicant in replying to this office action. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even through the requirement be traversed (37 CFR 1.143).
